

Dispenstech Solutions was the first company to introduce industrial and customized vending to the South African market after years of extensive research. We invested a lot of time and resources to adapt the concept for the South African market and to ensure that each client's specific requirements can be met.

The heart of **Dispenstech Solutions'** value proposition is our ability to stock products and/or consumables you currently use and then supply them in ways that save you time and money. Consumables/products include everything you currently use in your working environment that you could save money on (i.e. PPE, cleaning material, sanitary ware and any other consumables)

This system is revolutionising the industry, helping thousands of businesses drive productivity and cost savings and we are of the opinion that it can also help you. We are confident that you won't find a more complete, cost effective solution on the market.

We supply the vending machine(s), software and technical maintenance only. You do not have to change your current PPE and/or consumables supplier.

Dispenstech Solutions can boast with clients all over South Africa making use of its vending machines. Herewith just a few of our satisfied clients:

- Anglo Platinum
- Bushveld Vametco Alloys
- Capfin SA
- Game
- Higher Health
- Linde & Wiemann RSA
- Marula Platinum
- McCain Foods SA
- Philip Morris SA
- Reckitt Benckiser SA
- Rent a Car Division of Barloworld SA
- SA Airlink
- Sibanye Stillwater
- South African National Parks

Why does rental make sense for you and your company?

- Machines of the best quality currently available on the market
- Upgrade and replacement of the **Dispenstech Smart Store** after end of life or as newer technology becomes available
- Prices will be fixed for the duration of the contract term with no hidden fees
- Backup machines will be available for exchange

EXCLUDED from the monthly rental (if located outside Gauteng area):

- Travel and accommodation for technicians to do installation and training on site.
- Travel and accommodation for technicians to do repairs and maintenance on site.
- Transport/delivery cost of machine(s).

Client is welcome to have the machine branded/wrapped with your company's logo/artwork. Cost is for client's account.

Delivery and installation will be scheduled only after signed contract/Purchase Order and amount payable before installation have been received.

Payable before installation:

- Admin Fee, Installation and Training – equal to one month's rental (once off)
- First month's rental – rental payable monthly in advance
- Delivery charge (if applicable)
- Travel and accommodation (if applicable)

Should you be interested in learning more about the **Dispenstech Smart Store** and what it can do to your bottom line, please contact us to arrange a meeting.

*With our dedicated team of professionals we can honestly say
we are the experts when it comes to providing vending solutions
and we constantly strive to be the company that offers the best service in the industry today*

CUSTOMIZED VENDING

Dispenstech Solutions customize our vending machines to vend ANY type of product, depending on the client's specific requirements – the possibilities are endless.

- Vending gives you the best of both worlds: immediate access along with complete accountability
- Increase sales by making products available 24/7
- Customers can self-serve which ensures that your clients have the right products at their fingertips
- Although the product is easily accessible, every transaction is controlled and tracked
- Dispenstech Solutions** supply the machines, card readers and technical maintenance.
- It is hard to imagine a more efficient supply process

The machine is cashless and comes standard with a credit card payment system for ease of sales. This system tracks all transactions and reports can be printed.

The touch screen can be used for marketing purposes and/or detailed information on each product in the machine.

Our clients are vending products such as:

- Personal Protective Equipment (masks, etc)
- Food products (i.e. snacks, beverages, futurelife sachets, sandwiches, muffins, tin food, etc)
- Sanitary / Health products (i.e. razors, toothpaste, sanitary pads, pregnancy tests, condoms, etc)
- Beauty Products (Skincare, Haircare, etc.)
- Electronic Products (i.e. chargers, power banks, playstations, keyboard, mouse, headset, etc)
- Stationery (i.e. books, magazines, etc)
- Clothing products (i.e. sneakers, flip flops, jewellery, etc)

We customize the machine(s) according to the customer's specifications once the client supply us with samples of all the products that the client wants to dispense from the machine(s).

Quantities of products in machine(s) can only be confirmed after machine has been customized.
